

UNDER ARMOUR PERFORMANCE EYEWEAR

Maximizes SheerVision Loupe Performance

Igniter Frame - Black Color
2.5x Ultra-Lightweight Through The Lens Loupes

The versatile combination of Under Armour Performance Eyewear & SheerVision Optics provides you with the ultimate collaboration within the surgical magnification arena. Talk about strong teamwork - when Under Armour's strong yet lightweight eyewear is matched with SheerVision's award-winning designs enables the manufacturing of the lightest high-performance loupes in the game.

Enforcer Frame - Graphite Color
2.5x Ultra-Lightweight Flip-Up Loupes

ARMOURSIGHT™ LENS TECHNOLOGY

FIT SYSTEM COMFORT TECHNOLOGY

ANTI-BOUNCE BRIDGE
Eliminates bounce when vision matters most and comfortably cradles the nose. Traction improves if it gets moist from perspiration.

ADJUSTABLE NOSEPAD
Nosepads on most styles adjust to accommodate variable sizes for a custom fit.

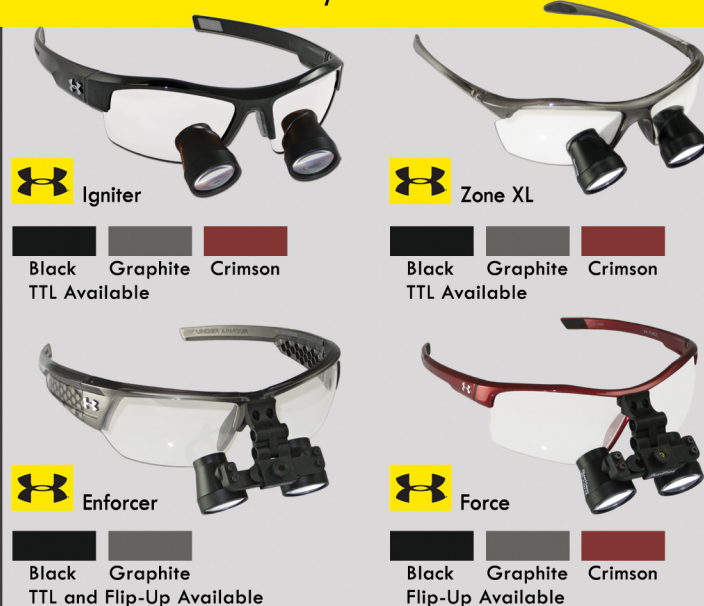

THREE-POINT GRIP
Nosebridge cradle and both temple tips act as a three-point grip system to provide a comfortable and secure fit.

ARMOURFUSION™ FRAME TECHNOLOGY

ArmourFusion™ frames flex and retain their shape through the toughest conditions. Combining the element Titanium, which has the highest strength-to-weight ratio of any metal known to man, with Grilamid, a durable cutting-edge thermoplastic, results in ultra-lightweight, impact-resistant sunglass frames.

AVAILABLE STYLES / COLORS

SHEERVISION ULTRA-LIGHTWEIGHT HIGH PERFORMANCE OPTICS

Igniter Frame - Crimson Color
EDGE Hybrid Technology High Magnification Through The Lens Loupes

- Expanded field-of-view for superior performance
- Exceptional depth-of field with customized working distance.
